Nota: the mentioned quantities can be variable according to the article

## Chemical composition

**Aspect:** Solid  
**Color:** Brown / White or Brown / Brown  
**Smell:** No smell  
**pH:** Non applicable  
**Boiling point:** Non applicable  
**Melting point:** Non applicable  
**Flammability:** Burns with difficulty  
**Auto inflammability:** Over 240°C  
**Explosive features:** Non applicable  
**Density:** Non applicable  
**Solubility in water:** Non applicable  
**Solubility in solvents:** Non applicable

## Ecological information

The product is made out of recycled paper and presents no danger for the environment.

The recycling of the filter loaded with paint has to be done according to local regulations.

## Danger indication

**Contact with skin:** Without danger  
**Contact with eyes:** Without danger  
**Inhalation:** Without danger  
**Ingestion:** Without danger

## First aid actions

**Contact with skin:** Without object  
**Contact with eyes:** Without object  
**Inhalation:** Without object  
**Ingestion:** Without object

## Fireproof actions

All fire extinction action are applicable.

## Manipulation and storage

**Storage:** In a dry place
